Float Marshals and Commentary

Please email:

Float Descriptions and Marshal details to Denise Fors no later than 11 March, 2018
dee.fors@gmail.com

Please supply the following details:

Princess Name:

Princess Number:

Float Theme:

Marshal One Name:

Mobile Phone No:

Marshal Two Name:

Mobile Phone No:

If you are sharing, please write No & name of Princess with whom you are sharing?

Please use at about 50 words for your description. The description that you provide will be used by the commentary team to describe your float to the spectators during the parade.

Ideas for your description include:

From where has the concept of your float come?

Describe the scene visible on your float;

- If its a book or film name the author or screen writer & the year it was released.
- If its a song, name who wrote, sang or made it popular.
- If it's a nursery rhyme, give us the line or lines that you are depicting.
- If its an era or time capsule, tell us the key elements of that period, what made it good or pathetic, funny or memorable.

Name key and minor characters that we will see upon your float, describe the roles that they play in your float theme. If your float is being followed by additional characters; name them and describe their purpose.

Bring attention to funny, brightly coloured or specific points of interest that we can try to spot on your float.

Example:

Our float theme is two peas in a pod. We got the idea when we were harvesting snow peas last summer, which had been left on the vine too long. Sure enough there were peas inside the pod. The pod was perfectly green with a little bit of a white flower still left at the top end. Snow peas are really cute, green and oh so sweet.

How could we not do two peas in a pod when its easy being green and we can't help but be sweet and adorable?

Check out the vegetable patch and look for the two peas out of their pod, on our float.

The other spring vegetables that have been harvested, are dancing along behind the float.

Look for lettuce and tomato; opposite colours attract you know! Together with cucumber and sweet capsicum they make a perfect salad.
